PRODUCT DETAILS

Universal Tooling Adapters

Features & Benefits:

- Easy adapter removal & installation with extra clearance.
- Hard coated aluminum reduces wear & nicking.
- Rugged Acme lock screw and handle.
- Three axis "wedge action" eliminates all unwanted movement.
- Square design prevents rotation of tooling.
- Detent latch provides double safety lock.
- Automatic connection for air and electronic sensors.
- Mechanical coding keys tooling to specific receiver.
- Compact design makes mounting easy.
- Light weight improves transfer performance.
- Easier changeover handling and storage of fingers.
- More economical than permanently mounted bar systems.
- Compatible with 1-1/4" diameter tooling fingers.

Component Selection & Sizes:

- Basic with no option: #S.125.AA.080
- With pneumatic option: #S.125.AA.081
- With electric option:
 - 3 Pin: #S.125.AA.086
 - 4 Pin: #S.125.AA.087
- With mechanical option: #S.125.AA.090
- With electric and pneumatic option:
 - 3 Pin: #S.125.AA.082
 - 4 Pin: #S.125.AA.083

**ADDITIONAL TOOLING COMPONENTS INCLUDE:**

Adapters, Adapter Brushings, Cross Bars, Edge Sensing Assemblies, Internal Wedges, Mounting Assemblies, Offsets, Shovels, Shovels & Traps, Standard Tooling Bases, Swivel Clamp Assemblies, Tooling Arms, Tooling Links, Universal Tooling Receivers
